

AFRICA ECO WILDERNESS GROUP

COVID -19 PCR TESTS FOR AFRICA ECO GROUP PROPERTIES

All International guests must take and produce a negative Covid-19 test to board their onward International flights to their destinations. We conduct PCR tests in camp and send the samples to a qualified accredited lab in Nairobi

We have a qualified Lab technician stationed at Entim Camp in the Masai Mara and hence we can provide the PCR TESTS in-camp for our guests staying in our properties in the Masai Mara. This allows all our guests to avoid spending extra nights in Nairobi and enjoy an extra night in the wilderness at the end of their safari.

Africa Eco has signed up with a government approved facility. The logistics of testing and protocols will be met including the time frame approved by the Ministry of Health requirements for Kenya and the guest's respective countries

PCR TEST SITE AND SAMPLE COLLECTION

Entim Camp – Maasai Mara

AVAILABLE TO ALL OUR GUESTS

Entim camp, Ilkeliani Camp, Lerai Safari Camp and Passengers of Hot Air safaris. For guests staying at The Cliff – Lake Nakuru National Park, please contact us for alternative arrangements.

THE COVID -19 TEST LABORATORY & RESULTS

Do you email these to the clients directly?

The laboratory is registered with PanaBios. The results and the TT code will be emailed directly as a digital and printable certificate, and certified with the new Trusted Traveller Certification Code required by Kenyan health authorities.

What are the operation time and days?

The labs are open 7 days a week including weekends and holidays, from 7am to 6pm (by appointment only). There are no delays on weekends and holidays.

What advance notice do you need and what is the booking email address?

We require at least 36 hours' notice.

How long does it take to get results?

The test results will be ready in 24 to 36 hours after the samples are collected.

What are the costs?

Each test kit USD \$120 per client

What are the payment options?

MPESA payments, Bank transfers, Visa Cards
